

VAV 3M1/4M1 Surrealism Partner Collage

Name: _____

Surrealists liked to use three techniques:

- 1) **Juxtaposition** (putting two different things side by side that don't normally go together);
- 2) **Dislocation** (when objects are placed where they shouldn't be); and
- 3) **Transformation** (turning something familiar into something unusual and disturbing).

The Surrealists thought that making connections between the images might reveal the workings of the unconscious mind. At the very least, they argued, collage would make people think.

TASK:

With a partner, you have 3 class periods to complete the following:

1. Randomly select 3 words which were generated on an idea generator (<http://andrewbosley.weebly.com/the-brainstormer.html>)
2. Use at least 4 images found from magazines, books or newspapers.
3. Use at least one drawing material (pencil, pen, charcoal, marker, pencil crayon).
4. Use at least one painting material (acrylic, watercolour, pastel).
5. Combine imagery in unexpected ways on the given paper. Image must communicate aspects of all three words. All found images must be securely attached to the project ground. Use white glue or glue stick.

Write or paste your 3 random words here:
